## Note Checker NC3

An efficient and easy way, to help stop forged notes from entering your tills. This model is a tough hard wearing machine.

Simply locate the Note Checker beside your cash register, and place the note on the unit.

Note Checker uses a combination of white and ultra-violet light to show the fluorescent fibres and multi-tone watermarks that validate the notes.

The result is immediate and you know if the note is suspect or not.

### Detection Technology:

- The white light shows the watermark and polymer strip with writing.
- The blue light shows the UV printing on the note and changes the colour of certain elements.
- Both lights can be used for dual checking simultaneously speeding up your note checking procedure.

### Specifications:

- Dimensions: 110 x 150 x 195 mm
- Weight: 2 kg.
