

## Tellermate TiX 2000

The R2000 is designed for businesses that want to streamline their cash processes for tighter control and more time for other tasks. It can count a till (including gift vouchers and tokens) and prepare a float in a single operation in under a minute. Faster counts enable more audits and checks to be made, and a complete audit trail can be created, giving managers information that can be swiftly acted on when discrepancies occur. The R2000 can also connect to a Tellermate printer for production of mini reports that can be signed for accountability.

### FEATURES OF THE T-iX R2000 :

- Counts cash, coupons and tokens
- Four customizable float values
- Full cash-up summary screen
