Functions

PRC-420 is a rail coin sorter that can sort up to eight coin denominations.

Special features

- LCD Display
- Batching: 2 batch stops individually programmable.
- Alarm system: Full box, open cover.
- Printer: Integrated thermo-printer

Description

The PRC-420 is a high speed coin sorter based on the flat straight rail principle. It is suitable for CIT and everyone else who needs to sort a high volume of coins. It can handle up to eight different denominations. It utilises the detection system Coinsure Adaptive®. The construction is very compact and offers extremely cost effective coin processing. An integrated printer is included. Operator ID can be registered on any printout or data transfer.
