## Tellermate TiX-R4500 Networked Note & Coin Counter

### Description

TiX-R4500 is designed to be a comprehensive cash room solution assisting the operator to perform everyday tasks using functions mapped specifically to them. The integrated numeric keypad allows balances and reference numbers to be entered and reported. Count data can be sent in report format to a Tellermate printer, a PC or directly to an internal computer network.

TiX-R4500 is designed so onsite staff spend less time counting and reporting on cash, allowing time for more rigorous audit and security processes. Cash levels in the safe and on the shop floor can be managed while the analysis of actual cash data can be processed centrally. The result is cash that is processed, reported on and monitored more swiftly and effectively minimizing losses and making your management team more reactive to problems.

### Special Features

- Count notes, coins and other non-monetary items
- Numeric keypad for balances and reference numbers
- Three count tasks
- Customizable starting bank values and systems
- Closeout summary screen at the end of each count
- Full bag and band checking facility
- High capacity money platform
- Report to Tellermate printer, PC or network
- Count up to two currencies
- Large, backlit graphic display
- Intuitive menu and navigation
- Compact and lightweight with carry grips
- Illustrated quick start guide

### Benefits

- Dramatically speed up cash management
- Count a cash drawer in less than one minute
- Ensure correct deposits
- Quickly check for errors or discrepancies
- Time for more valuable tasks
- Improve cash security through audit trail
- Improve management information
- Eliminate errors in data transfer
- High quality audit trail using mini reports
- Use reference numbers to improve audit trail
- Centralize analysis of cash audits or security checks
- Give HQ site level visibility

### Large Display

Large, high resolution backlit display enables the use of larger text and clear icons. Screen layout is ergonomically designed for quick and easy operation.

### Sophisticated Communications

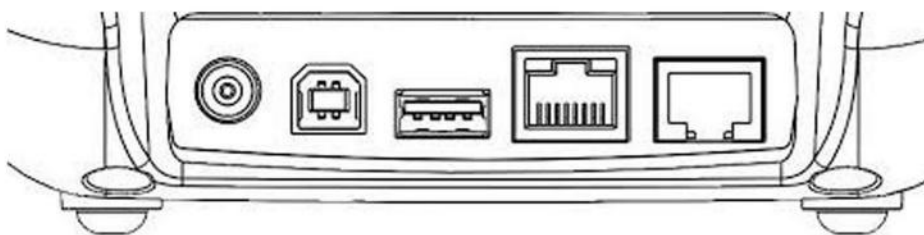

A range of connectivity options are available that provide flexible and comprehensive solutions for all application needs.

Automatic upload of data to the server is easy through Static IP or DHCP configuration.

### Damage-Resistant Design

Designed for durability, the unique and robust features of the T-iX reduce damage through impact.

Liquid-resistant key mat and drainage lines minimize effects of accidental liquid spills.
