CM18T Teller Cash Recycler

Easy Operation

The CM18T system allows banknote handling for one or more bank operators during over the counter deposit and withdrawal transactions performance by customers at bank branches.

The unit automatically recognizes, validates, rejects worn or damaged notes and recycles fit notes.

It improves the security for an open plan customer zone of bank branches or bank off-site booth locations. It also increases efficiency and savings in managing the cash life cycle of cash management by tellers.
