

Ruhlmat BB2540 Banknote Bander

Application

The BB2540 is specially designed for banding of various kinds of sensitive products to bundles or to stacks in the packaging field as well in the money handling field like banknotes. The Bander is for the use of paper "kraft" (Thermoband), PE-coated or PP-film band (Polypropylene), without any change. The models which we can provide are working with 50 / 40 / 30 / 20 mm band in width. The standard model is working with 40 mm band in width. Banding machines with special widths can be manufactured on request.

Features

- Compact design
- Solid mechanical construction
- Universal sealing temperature
- Variable loop size
- Adjustable guides to suit the product size
- Continuously adjustable tape tension
- Closing the band by temperature sealing
- Sealing the band underneath the product
- Push button or photo cell control
