## CR40 Coin Recycler

Slim design, small footprint coin recycler

### The Product

The ARCA CR40 coin recycler automates back office coin management, allowing retail staff to reduce time-consuming manual coin handling.

The coin recycler is designed for back offices with limited space and for retailers who manage coin amounts that don't require the high capacity of ARCA's larger coin recycler.

The CR40 is ideal for retail stores that have three to twelve points of sales per location, such as local retail businesses and do-it-yourself stores.

### Specifications

- Dispenses 960 coins per minute approx.
- Accepts 200 coins per minute approx.
- Precise access control levels allowed
- 5500 coins storage capacity approx.
  - 1 cent: 1300 2 cent: 1000

  - 20 cent: 600 50 cent: 375
  - 1 Euro: 400 2 Euro: 300
- Dimensions
  - 94 x 69.1 x 35.1 centimeters
- Weight (Empty)
  - 84 kilograms

### The Benefits

The ARCA CR40 stores coins and then dispenses them at the beginning of shifts. Coins are recycled from previous deposits, automatically filling the tills.

Amounts are predetermined for each user and are dispensed by denomination to the drawer. Time and human error are reduced while accuracy, security and accountability are improved.

End of shift coins are emptied from the drawer onto the CR40's feed surface and precisely counted, sorted and stored - ready for the next dispense.

Labor costs are reduced resulting in a fast ROI. The CR40 helps you maintain a steady inventory of sorted coin in your store. This means fewer change orders.

Unit 19, Turvey Business Centre, Turvey, Co. Dublin
