cashMAX CMX10 Coin Counter & Sorter

Description

The cashMAX CMX10 from South Automation is a user friendly, compact and robust coin processing machine with reliable and speedy coin detection capabilities. It has mixed coin counting, denomination counting and sorting and batching capabilities for up to 9 denominations. The user can empty the cashier box directly into the hopper, avoiding manual feeding and can count, total and bag up to 8 floats simultaneously!

Technology

Reliable counting and false coin protection; the cashMAX ® detection system measures 4 parameters of the coins in order to recognize the denomination or to reject it in case of not matching parameters. The system is contactless and therefore wear-free.

Specifications

- Dimensions: (H)365mm x (W)400mm x (D)285mm
- Weight: 20kg
- Hopper Capacity: 3000 Euro Mix / 5500 US Mix
